What is the Mindology Fitness training process?

The first step in the MFK training process is the classroom certification process. The classroom certification process is delivered via pre-recorded audio and video instruction. The pre-recorded audio and video classroom program is taught by MFK founder, Coach Troy. The MFK trainees have access to the classroom training portion of the program twenty-four hours a day, seven days a week and can therefore move at their own pace and in the comfort of their home.

The second step in the MFK training process is the performance verification process. Each trainee is required to video tape their delivery of the program and

submit their performance to MFK corporate for evaluation. If the trainee's delivery of the program meets MFK corporate criteria, the trainee's ability to deliver the program will be verified.

Once classroom certification is complete and their program delivery is verified, the trainee becomes an official Mindology Fitness Kids' program trainer.
